AVERAGE FARE BY AIRLINE

Average fare By Month

AVERAGE TICKET PRICE BY NO.OF STOPS

Cheapest airline for each number of stops

Stops	Cheapest airline	Avg fare	Vs average for that stop count
Non-stop	Star Air	₹6,887	3.6% below average
1 stop	IndiGo	₹8,185	3.5% below average
2 stops	SpiceJet	₹9,908	1.2% below average
3 stops	Star Air	₹11,431	2.6% below average

Key Insights

Non-stop flights average **₹7,145** vs **₹11,737** for **3 stops**: **64.3% more**. Each extra stop adds about **₹1,531**. Book non-stop whenever the schedule allows.

Airline barely matters. The cheapest and costliest airlines differ by only **3.3%**. Choose on schedule and service, not fare.

Departure time changes fares by just **1.2%**. Pick the time that suits you.

Month-to-month fares vary only **3.7%** (May lowest, Jun highest) so there is no clear cheap season.

Journey duration has almost no link to fare. The number of stops is the only strong price driver.

Every stop has a price. Compared with non-stop, a 1-stop flight costs **18.7%** more, 2 stops cost **40.4%** more, and 3 stops cost **64.3%** more.
